

**PLEASE KEEP THIS PAGE AT HOME ON YOUR COUNTER OR BY THE DOOR- DO NOT RETURN
FOLLOW THESE GUIDELINES EACH DAY TO DETERMINE IF YOUR CHILD IS ABLE TO ATTEND SCHOOL**

Parents should take their child's temperature every day before their child leaves for school. If your child has a fever of 100.0 or over, your child should be kept home from school. A fever is a key symptom of COVID-19. You should ask your child if he/she has any other symptoms of COVID-19 (see below). If your child complains of these symptoms or has a fever, or you answer yes to a question in section two, please, keep them home, call your child's doctor and contact the school to report your child's absence. If your child is sick with a common cold or other ailment your child should stay home until symptoms subside and they are fever free. We strongly encourage every student to receive the FLU vaccine this year!

SECTION 1: Symptoms

Before you or your child leaves for school each day – Consider all that apply:

_____ fever or chills – Is fever 100.0°F or higher?

_____ sore throat, congestion, or runny nose?

_____ new or worsening cough that cause's difficulty breathing?(if your child has chronic allergies, or an asthmatic cough, is there a change in their cough from baseline?)

_____ diarrhea, nausea, or vomiting?

_____ onset of severe headache, especially with a fever?

_____ fatigue, muscle or body aches; loss of taste or smell?

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19. This list does not include all possible symptoms. CDC will continue to update this list as they learn more about COVID-19. <https://www.cdc.gov>.

SECTION 2: Close Contact/Positive Test/Potential Exposure& Travel

_____ had close contact (within 6 feet of an infected person for at least 10 minutes) with a person confirmed positive in the past 14 days or tested positive for COVID-19 yourself?

_____ have traveled internationally or from a state with widespread community transmission of COVID-19 per the New York State Travel Advisory in the past 14 days?
(<https://coronavirus.health.ny.gov/covid-19-travel-advisory>) for Official State List.
